Update date: juin 6, 2025.

New services available in electronic prescription of the National Health System	
	Dispensation discard
	Preventive block by the pharmacist
	Confidentials (CA Andalusia, Ceuta and Melilla: available only as a dispenser)
	Extemporary drugs
	Individualized vaccines
	Active treatment

New services wil be gradually incorporated by the autonomus communities.

These services will be available to people as long as the two autonomus communities involved offer them.
